# DEMOCRATS FOR 2029

A Governing Agenda for Working Families

Prepared. Staffed. Ready on Day One.

## The Problem

Republicans entered the White House with Project 2025, a fully staffed, pre-written governing blueprint. Democrats won in 2020 and spent years debating priorities after the election was over. Working families paid the price. That failure is not acceptable again.

## The Solution

Democrats for 2029 is a pre-built governing agenda. Not talking points. Not aspirational white papers. Actual legislation. Executive actions. Agency timelines. Trained personnel, ready to deploy on Day One. If voters hand us power, we will not waste a single month figuring out what comes next. This is the Democratic equivalent of Project 2025, built for working families.

## Seven Pillars

Each pillar includes draft legislative language, executive actions where appropriate, and implementation plans with responsible agencies and timelines. This is governance, not vibes.

ECONOMIC SECURITY	Summary: Medicare for All, \$17 minimum wage, universal childcare. Implementation: Draft legislation, budget scoring, agency implementation plans.
HEALTHCARE AS A RIGHT	Summary: 4-year transition to single-payer, cap drug prices. Implementation: CMS rulemaking, transition timelines, provider payment systems.
DEMOCRACY REFORM	Summary: End gerrymandering, expand voting rights, fix the courts. Implementation: Model legislation for states, DOJ guidance, judicial nominees vetted in advance.
CLIMATE AND GREEN JOBS	Summary: 10 million union jobs in renewable energy. Implementation: Project-level implementation, workforce pipelines, union partnerships.

AI AND FUTURE OF WORK	Summary: Protect workers from automation. Guarantee retraining, wage insurance, and worker ownership of productivity gains where automation displaces labor. Implementation: Mandatory AI impact disclosures, wage insurance, federal retraining pipelines.
IMMIGRATION REFORM	Summary: Fix the system and treat people with dignity. Implementation: DHS policy directives, asylum processing protocols, legalization pathways.
VETERANS AND SECURITY	Summary: Fully fund VA and pursue a non-interventionist foreign policy. Implementation: VA budget increases, benefit reforms, diplomatic strategy.

## Who We Are

Founded by Matt Schoville, Navy veteran and 2028 congressional candidate (CA-08). Democrats for 2029 is building a coalition of candidates who will campaign on detailed implementation plans, not just values.

I managed million-dollar operations in the Navy. You do not figure it out after you take command. You plan. You staff. You execute. Democrats need to govern like professionals.

## Join the Coalition

Candidates can apply to join the 2028 coalition and campaign on governing readiness. Policy experts and organizations can partner with us to develop implementation plans. Personnel can join the staffing pipeline for Day One governance roles.
